DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 5-11.

2. This application is in condition for allowance except for the presence of claims 5-11 to inventions non-elected without traverse. Accordingly, claims 5-11 have been cancelled.

Allowable Subject Matter

3. Claims 1-4 are allowed.

4. The following is an examiner's statement of reasons for allowance:

a. With respect to claim 1, the claim has been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a method of reconstructing an image comprising the step of recovering the two-dimensional spin density from the partial spin density by analytically evaluating an inverse PERL transform of the partial spin density in combination with the remaining limitations of the claim.

Art Unit: 2859

- b. With respect to claims 2-4, the claims have been found allowable due to their dependency of claim 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
